Welcome to the world of ZUMI.

INTRO

ZUMI stands for sustainability, quality and timeless design. Every day we strive to strike a balance between innovation and environmental awareness.

Sustainability,
our core principle.

At ZUMI we believe in minimising our environmental footprint. Our lighting solutions are designed with sustainability in mind, using energy efficient LED technologies and the highest quality materials. Our aim is to reduce environmental impact without compromising on brightness and style.

Quality as standard.

At ZUMI we let quality speak for itself. Every product in our range is rigorously tested to meet the highest standards. From design to manufacture, we strive to deliver products that are not only beautiful, but also guarantee long-term performance. Invest in lighting that illuminates not just the moment, but the future.

Repairable for a longer life.
We understand the importance of a circular economy and strive to make our products repairable. At ZUMI we encourage repairs and upgrades to extend the life of our lighting. In this way we reduce waste and contribute to a more sustainable future.

Cradle to Cradle design principles.
Our commitment to sustainability extends beyond the production phase. ZUMI embraces the Cradle to Cradle design principle, where we select materials that can be reused or recycled. We believe in a closed loop where products do not become waste at the end of their life, but are reintegrated into the production chain.

Guaranteed satisfaction.
At ZUMI we stand behind the quality and durability of our products. That is why we offer a comprehensive warranty on all our lighting solutions. Your satisfaction is our priority and we are proud to offer you peace of mind with every purchase.

Choose ZUMI and not only illuminate your space, but also lead the way to a more sustainable future. Discover the perfect synergy of style, quality and responsibility.

YESSS! "We are the difference."
is a perfect reflection of our story!

We hope to meet you and share our passion with you.

ZUMI
in the picture

Enter the luminous world of our lighting company, where innovation and elegance harmonise.

Our award-winning products have been judged and praised for their exquisite design and technological ingenuity. From sleek modern designs to energy-efficient solutions, we illuminate spaces with style and timeless design.

Working with ZUMI, we transform architecture into its purest form, leaving an indelible impression. Lighting becomes an authentic experience.

Embrace a brilliant future where our products not only illuminate spaces, but also tell a story of innovation, beauty and timeless class.

Join us on a journey where every illuminated space becomes a canvas, showcasing the artistry of ZUMI's commitment to excellence.

Thanks to

We thank our esteemed **customers** for choosing our lighting products to illuminate their beautiful interiors, offices, shops, hotels, art galleries and more.

We appreciate the dedication of **interior designers, architects, engineers and designers** who seamlessly integrate our products into their projects.

Thank you to all the **fans** who make the ZUMI story possible.

Thanks to our **distributors** for spreading our brand around the world.

Special recognition to photographers **Bart Vercammen** and **Bert Demasure** for their impressive photos.

Last but not least, a huge thank you to our **ZUMI team**, who work miracles every day to bring happiness to our customers!

"YESSS! We are the difference."
